Unlimited Learning Possibilities

Introducing the Interactive Display WAD series, for engaging educational experiences. Based on Android OS, it provides a familiar and intuitive user experience.Download apps through Google Play and use pre-installed apps like YouTube and Chrome to stay productive and open a new era of education.
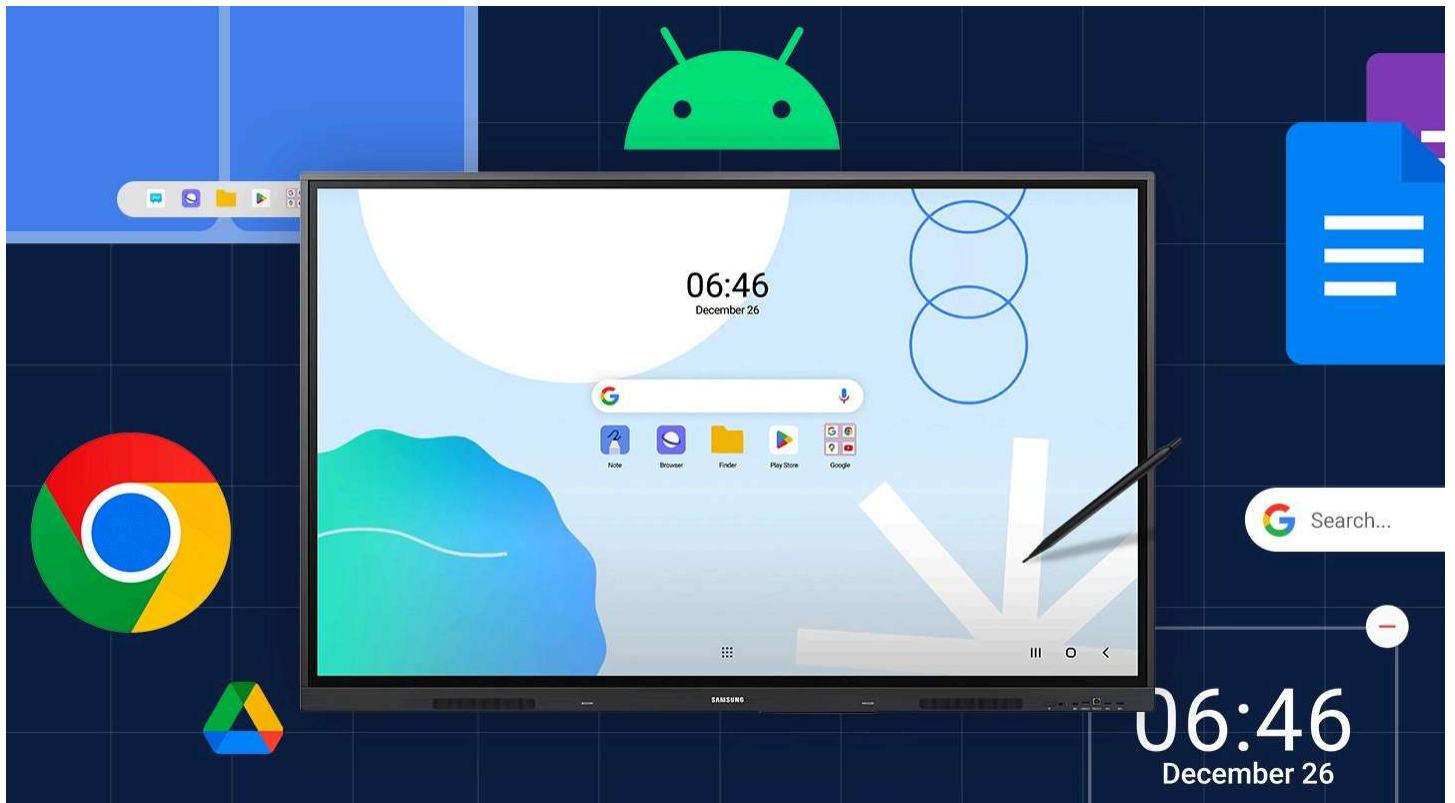

An intuitive UX that fits your needs

Powered by Android™

The WAD series offers familiarity to its users. It's compatible with other Android devices and provides a variety of widgets and an easily customizable homescreen. These features create more flexibility in building an environment that suits various learning needs.

Effortless access to Google services

EDLA Certification

With an EDLA certification, the WAD series supports a variety of Google services like Google Play and YouTube. This access to major educational apps like GoogleClassroom leads to increase efficiency and enhance communication with students.

Display multiple screens simultaneously

Easy Multitasking

g split screen and multi-window, enable teachers to easily display information and on the WAD series.This flexibility provides convenient access to all the screens required to create engaging learning environments.

Smart, wireless sharing on multiple devices

Powerful Screen Sharing

The WAD series supports screen mirroring for up to nine devices, increasing student engagement. This feature ensures every student is included and engaged ascontent can be shared on both the large display and individual devices. It can be used on iOS, Mac, Windows, Android, or Chrome OS.

Writing experience

Better interaction with best-in-class multi-touch

Multi-point touch

Multiple users can write on the whiteboard at the same time with the display's advanced multi-touch capabilities.Up to 40 simultaneous touchpoints are possible, allowing large groups of students and teachers to collaborateand learn together in a fun and natural way.

Connectivity

onnectivity with USB-C

Connectivity is enhanced with the 3-in-1 USB-C port, enabling screen mirroring, touch control and external devicecharging (max. 65W). Teachers can simply connect to the USB Type-C port, allowing them to deliver interactiveand engaging lessons without any hassle.

Device Management Solution

Seamless management, efficient operations

Device Management Solution

The WAD series provides a device management solution* essential for advanced educational environments. This solution optimizes the remote management of whiteboard settings and applications, guaranteeing operationalefficiency and stability.

*The cloud-based DMS solution is provided free of charge for one year. Pricing policy policies are is subject to change. For more details, please contact your account manager. Additionally, the WAD series provides an on-prem DMS solution, allowing customers to choose an option that best fits their local network requirements. *UX/UI images are simulated for illustrative purposes. App availability and content may change without notice.

Reduce eye strain with better eyecare settings

TUV Certification

The WAD series is equipped with features to protect users' eye health. The anti-glare panel, low blue light, and flicker-free functions effectively block blue light and flicker while also diffusing reflection. The WAD series prevents glare even in bright settings.

Seamless learning in various environment

Superior Durability

The WAD series protects against electrical surges by using a ceramic fuse and 500V(DC) capacitor that absorbs instant spikes in voltage. It is also a valuable tool for schools in high humidity or rainy climates with anti-humidity glue applied to the critical areas of the chipset.

*The claims of enhanced surge and humidity protection for the WAD series are based on Samsung's internal testing.
