Slim design. Stunning performance.

Introducing QMC, the slimmest display in the Samsung UHD Signage. It brings elegance to business while maximizing space. Its enhanced internal solutions and intuitive home screen UX make it easy to use. Businesses in various verticals can achieve growth with QMC and design innovation.

Maximum impact in minimum space

Ultra Slim Depth

The QMC's unparalleled ultra-slim 28.5 mm depth makes it the thinnest option in Samsung's UHD series. It is compatible with a Slim Fit Wall Mount*, which allows you to install it neatly and easily in any location. QMC optimizes space with its sleek design that blends seamlessly into your business environment.

* Slim Filt Wall Mount must be purchased separately.

Clean visuals in landscape or portrait mode

Even Bezel

The bezels are consistent and even on all four sides of the display, with the same thickness and dimensions. The new even bezel design prevents any visual issues from arising when the display is adjusted to portrait mode.

* When compared to Samsung's previous UHD signage models.

re and even mounting

Centered VESA Holes

The central positioning of the VESA holes on the back of the display evenly distribute its weight for secure mounting. With the VESA holes now shifted to the center, users can adjust the display to portrait mode without the display tilting unintentionally.

* The position of the VESA holes may vary slightly by model.

Lifelike color, born in a pure state with fine crystal

Dynamic Crystal Color

Every picture is more immersive with one billion shades of color. Dynamic Crystal Color delivers true-to-life variations, allowing customers to see every subtlety.

View lifelike shades of color in powerful 4K

Quantum Processor Lite 4K

Samsung's industry-leading video processing technology enhances every piece of content for clarity and consistency. Intelligent UHD upscaling technology, powered by Samsung's Quantum Processor Lite 4K, elevates lower-resolution video to UHD, providing a professional picture quality.

* When compared to Samsung's FHD model* Viewing experience may vary according to types of content and format

ritical information is always visible

Non-glare

QMC displays feature reliable, non-glare panels that provide better visibility from all angles, any time of day. The non-glare display enables businesses to deliver accurate information in critical locations, like airports and train stations.

Connect with convenience

Home UI

QMC boasts greater usability with an upgraded home screen UI. Popular categories like Favorites, Sources and Settings are displayed on the same screen for convenient availability. The Favorites folder grants users quick, easy access to frequently used features in a single click.

Collaborate between screens with wire-free speed

Smartview+

SmartView+ enables wireless screen sharing without cable connections, ensuring easy collaboration. Users can now enable the screen sharing function at the start of a meeting, allowing the meeting admin to quickly switch between screens with one click.

Simplified calibration between screens with mobile app

Smart Calibration

Consistency across every display in every location. Using the Samsung mobile app, every display is calibrated correctly, showcasing brand logos and other collateral in the exact colors required.

Enhance professional environments with expert tools

Professional Modes

Built-in professional modes enable more possibilities in specific verticals. Director Mode minimizes post-processing, aligning content to the director's original intention. Medical teams can simulate medical images such as X-rays with DICOM Simulation Mode, meeting DICOM's full grayscale standards

Change the way to manage your display

Samsung VXT

Samsung VXT CMS is a cloud-based solution that brings together content management and remote device management capabilities, allowing users to remotely manage hardware settings and troubleshoot issues while effortlessly creating and deploying content with no previous training needed.

* VXT CMS must be purchased separately.

Everyday Sustainability

Energy Star / EPEAT* / TÜV Rheinland Carbon Footprint*

Samsung is making diverse efforts to reduce our environmental impact in smart signage, and encouraging users to pursue a more sustainable life. As a result, QMC series has earned a series of certifications for environmentally products from highly recognized institutes in Germany and the U.S.

ification from the Environmental Protection Agency for its energy efficiency and an Electronic Product Environmental Assessment co-conscious efforts, such as its recycled plastic use. Also, QMC series is the first signage models to receive a product carbon footprint certification from TÜV Rheinland, a global testing body.

** TÜV Rheinland was established in 1872 and headquartered in Cologne, Germany, TÜV Rheinland provides quality and safety certification services to multiple industries. The

organization calculates its carbon footprint certification by evaluating the amount of greenhouse gases generated throughout the entire product lifecycle, ranging from production to disposal, based on internationally recognized standards.
*** The certification status of TÜV Rheinland Carbon Footprint may vary depending on the inch.
